ISO 37001:2016 ANTI-BRIBERY MANAGEMENT SYSTEM TRAINING COURSE

This 2 days foundation and implementer training course is designed to enable participants to gain extensive knowledge of the requirements of ISO 37001:2016 standard. We take you through a specific implementation process of the Anti-Bribery Management System (ABMS), as an enabler to understand the requirements of the standard.

Aim of the course

On successful completion of this awareness course, delegates will be able to:

- Identify the key concepts of Bribery
- Understand the approaches, methods, and techniques used for the implementation and management of an ABMS
- Share best practices how Fortune 500 companies implement and manage ABMS
- Share recent compliance failures cases and how ISO37001 can prevent such failures from happening
- A practical review of ISO37001 and reasons you should/should not go for certification
- Describe the Plan-Do-Check-Act management system approach and how it relates to ISO 37001:2016 and techniques used for the implementation and management of an ABMS
- Understand the requirements and operations of an Anti-bribery Management System
- Identify the missing gaps and assist your organization to adopt the ISO37001 framework (plan, implement, manage, monitor and maintain an ABMS)
- Identify steps how to proceed with ISO 37001 certification

Who should attend:

- New and experienced compliance professionals who want to benchmark and improve their anti-bribery compliance program
- New and experienced compliance professionals, business partners, government agencies, NGO and business associates who want to adopt ISO 37001 framework
- New and experienced internal auditors who need to perform internal audits to ABMS
- New and experienced ISO auditors who want to perform ABMS audits
- Individuals concerned about Anti-Bribery Management and interested in finding out more about bribery and the main processes and key elements of ABMS
- Individuals interested to pursue a career in Anti-Bribery Management
